

ABSTRACT

The purpose of Campus Recruitment System is to automate the existing manual system by the help of computerized equipments and full-fledged computer software. fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. The required software and hardware are easily available and easy to work with.

Campus Recruitment System, as described above, can lead to error free, secure, reliable and fast management system. It can assist the user to concentrate on their other activities rather to concentrate on the record keeping. Thus it will help organization in better utilization of resources. The organization can maintain computerized records without redundant entries. That means that one need not be distracted by information that is not relevant, while being able to reach the information.

The aim is to automate its existing manual system by the help of computerized equipments and full-fledged computer software. fulfilling their requirements. so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. Basically the project describes how to manage for good performance and better services for the clients.

ACKNOWLEDGEMENT

A great deal of time and lot of effort has gone into completing this project report and documenting it. The number of hours spent in getting through various books and other materials related to this topic chosen by me have reaffirmed its power and utility in doing this project.

Several special people have contributed significantly to this effort. First of all I am grateful to our institution **Channabasaveshwara Institute of Technology**, Gubbi, which provides me an opportunity in fulfilling my most cherished desire of reaching the goal.

I acknowledge and express my sincere thanks to our beloved Principal and Director (Tech.) **Dr. Suresh D.S** for his many valuable suggestions and continuous encouragement and support in the academic endeavors.

Thanks to **Assoc.Prof. Pradeep v**, head of the Department of Information Science and Engineering for his guidance on how to approach an engineering problem and come up with a solution in an organized manner.

I wish to express my deep sense of gratitude to **Mr.Vishwas** Department of Information Science and Engineering for all the guidance and who still remains a constant driving force and motivated through innovative ideas with tireless support and advice during the course of project to examine and helpful suggestions offered, which has contributed immeasurably to the quality of the final report.

Project Associate

PUNEETH N[1CG15IS038]
